- Skips backward 7 seconds or forward 30 seconds through DVR or VOD content

- If your remote isn't working, make sure it's set to control the set-top box (push the "STB" button at the top of the remote) and has fresh batteries.
- If you lose your TV signal, try rebooting your router.
- A "No Signal" message doesn't mean your signal is lost—it means you have selected the wrong input on your TV.
- For further VTelevision tips and frequently asked questions, see Page 10 in your GigE Home Welcome Booklet.
