

VTel GigE Pro FIBER:

A BOOST TO YOUR BUSINESS AND SOUTHERN VERMONT'S ECONOMIC DEVELOPMENT

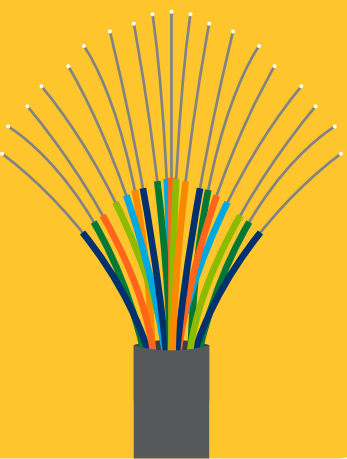

WHAT ARE FIBER OPTICS? // Join the light-speed telecommunications revolution!

Gigabit fiber is transforming cities across America, and it's **available now for your southern Vermont business!** VTel is unique because we can offer this technology at the **lowest cost possible**, thanks in part to federal stimulus funding.

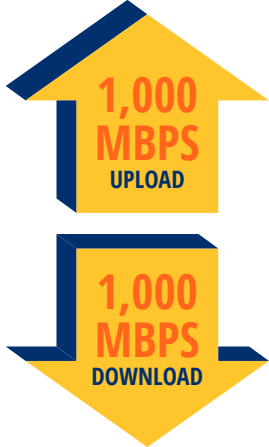

FIBER OPTIC CABLES

contain many long strands of thin glass, capable of delivering data at **186,000 miles per second**. (Over 7 times around the earth per second!)

HOW FAST IS A GIG? // (Hint: Really fast.)

100x FASTER
than a typical Internet connection

Upload and download speeds are symmetric, meaning you can upload data as quickly as you can download it!

See how quickly you can move your files:

Powerpoint Presentation 1 MB 0.001 sec	48-Page Catalog 20 MB 0.02 sec	Hi-Res Images, Such as an MRI 50 MB 0.05 sec
20-Minute SD Video 750 MB 0.75 sec	2-Hour HD Video 6 GB 6 sec	Computer Hard Drive Backup 1 TB 16 min

INFRASTRUCTURE FUTURE-PROOFING

Because it's smart to be ahead of the curve.

SCALABILITY

Increasing capacity over fiber is as simple as replacing the equipment at the ends of the strands, leaving the constructed segments in place.

WEATHER-RESISTANT

Fiber is more robust and resilient to extremes in temperature, moisture, and distance, and it costs less to maintain.

THE BEST OF BOTH WORLDS

Cutting-edge connectivity in a beautiful rural setting.

Why sacrifice your quality of life for your work? You can have it all in southern Vermont, distinguished for being the **most rural place in America with access to gigabit fiber.**

IMPROVE PRODUCTIVITY // While enjoying all Vermont has to offer!

SALES & MARKETING

World-class connectivity means the best pro applications in the world are now within your reach. Get to the next level with cloud-based customer relationship management and point of sale systems to generate new revenues quickly.

HOSPITALITY

By providing your guests the fastest Internet in the country, you'll easily be able to exceed their expectations. This translates into improved ratings, filled beds, and increased revenue. You can add even more value by bundling with VTelevision (where available).

INFORMATION TECHNOLOGY

Leverage the robust regional infrastructure of VTel Data Networks so your enterprise or institutional networks can enjoy instant and secure data connectivity internally and with the world via sophisticated, yet tailored, solutions.

HEALTHCARE

Our world-class regional network delivers the enhanced robustness and security required for critical applications. Instantly and securely transfer records and large files between offices. Now, telemedicine over fiber brings remote patients with VTel GigE Home within reach.

AGRICULTURE

Get instant feedback through crop and commodity monitoring applications to stay ahead of the game. You can even pair GigE fiber with VTel Wireless 4G LTE for the ultimate marriage of fixed and mobile connectivity.

GO MOBILE WITH 4G LTE

Feeling stuck at the office? Let us help with that.

Supplement your gigabit fiber connection with VTel Wireless 4G LTE service and take your work with you. Soon, we'll have coverage across 95% of the state.

BE A HOTSPOT, GET TRAFFIC

Everyone will want to be your friend.

Turn your business into a VTel GigE WiFi hotspot, and increase foot traffic through your door.
