

VTel GigE Pro Dare to Compare

Our goal is simple: to bring your business more, better, faster, for less. We build all our services and bundles around this goal to give you the peace of mind that comes with knowing you won't find a better deal for comparable services. If you ever do, just show us and we'll give you \$10 for your time, and either beat that price or let you cancel with no penalties. Fair warning: we've never seen a price we couldn't beat. And getting the best deal is just the beginning—we also guarantee the best experience for as long as you do business with us. If you are ever unsatisfied with any VTel service for any reason, just let us know and **we'll give you credit for a free month of that service** (up to once per year), no questions asked. *All rates are before taxes and include the required Gateway equipment.*
